

# Supervised Classification of Annapolis Valley

## Legend

Urban Areas

Bridgetown

Greenwood

Middleton

Road

Highway 101

Land Class

Water

Urban

Barren

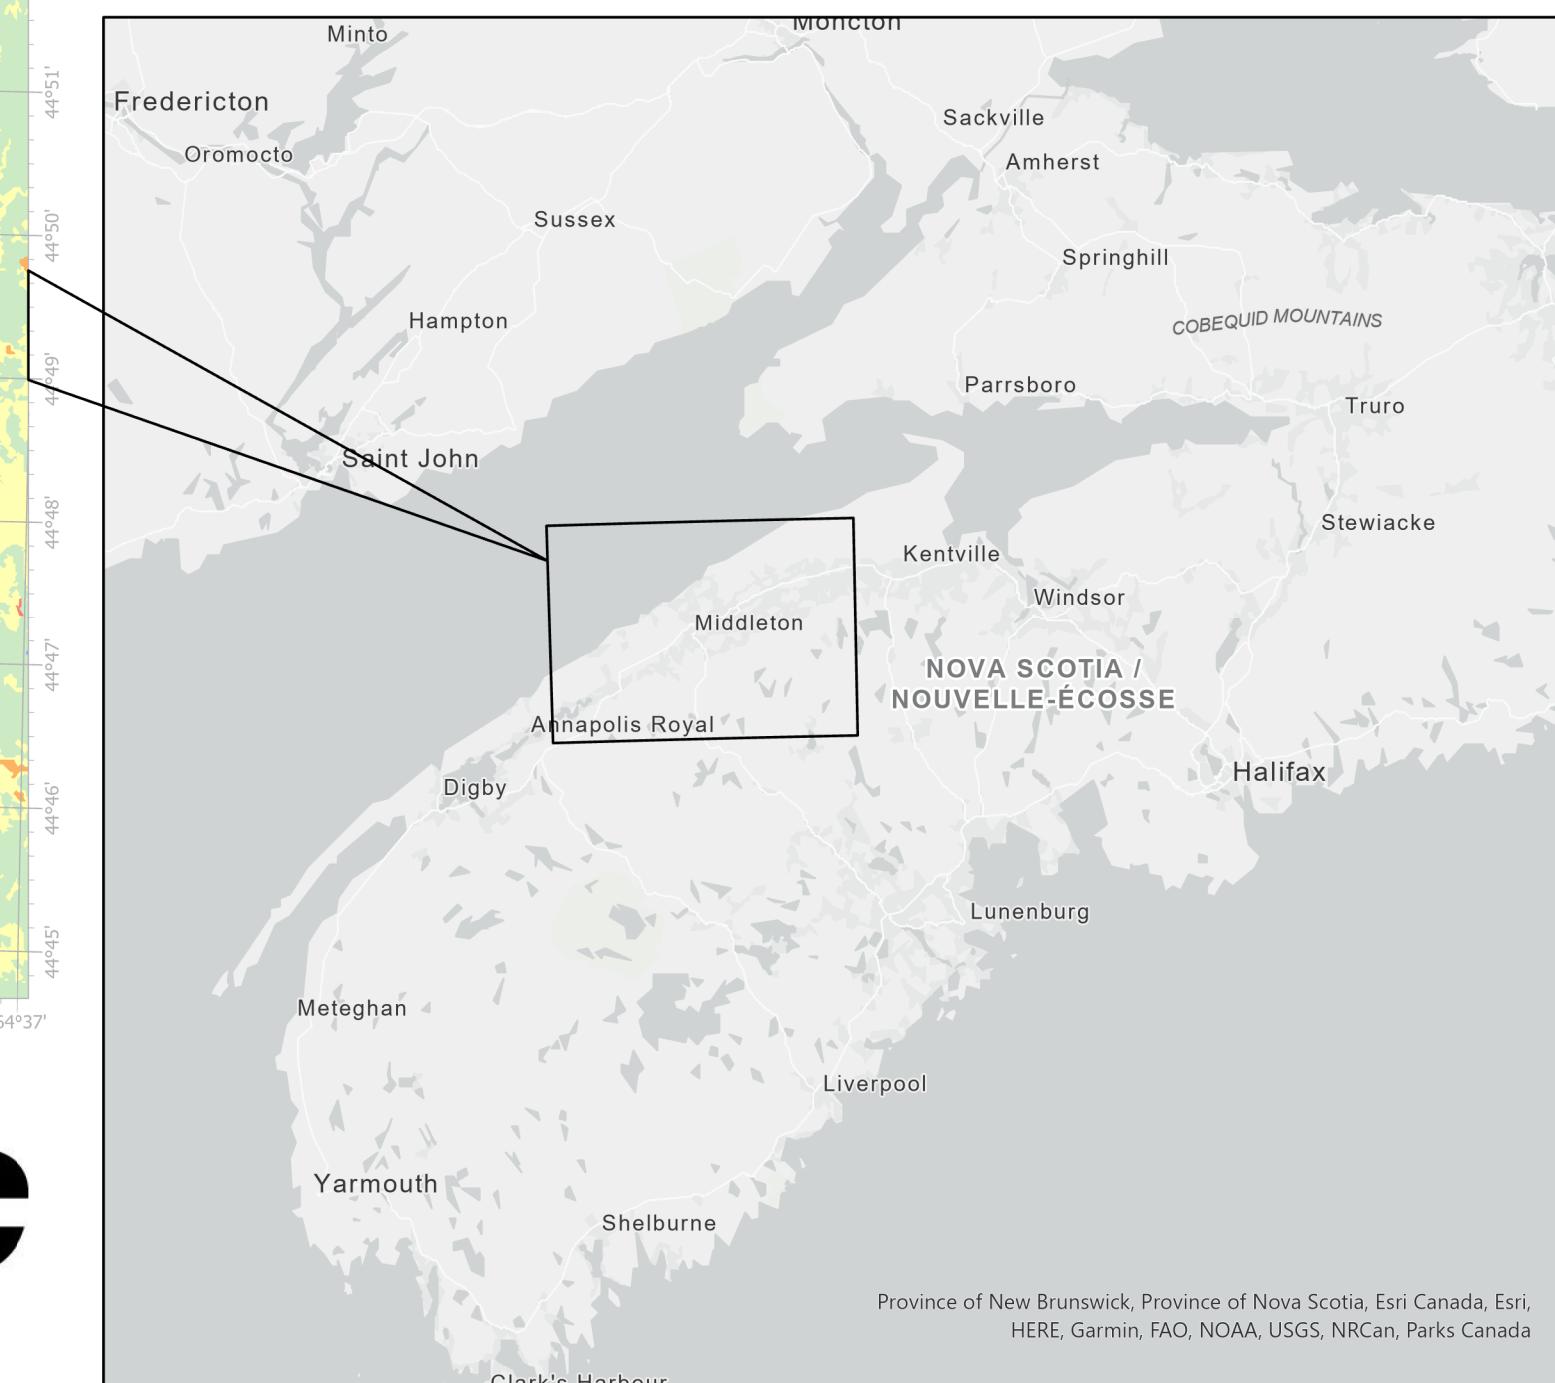

Herbaceous

Forest

## Class Descriptions

Water includes the ocean, suspended sediment, rivers, and lakes. Urban areas include roads and built up areas. Barren areas include shorelines and soil. Herbaceous is grasslands and crops. Forest contains deciduous trees, coniferous trees and mixed stands.

The image inset on the map is an example of an area which would be classified as urban. The image below is a Landsat-8 true colour composite. The Landsat-8 imagery was used for classification.
